

SPECIAL EXHIBITION

SHADOW LIGHT STRUCTURE.

Washi paper art
by Koji Shibazaki and Mikako Suzuki

In cooperation with the German-Japanese Society in Passau e.V., the Oberhausmuseum is hosting an exhibition of outstanding paper art from Japan. Artists Koji Shibazaki and Mikako Suzuki are presenting filigree objects made from traditional, handmade Japanese paper („washi“). In accordance with the Japanese concept that only darkness makes beauty shine, a visit to the darkened exhibition rooms becomes an unforgettable aesthetic experience of light and shadow.

Sliding paper doors („shojis“) made especially for the exhibition envelop the fortress's historic Knights' Hall in soft light, creating the atmosphere of traditional aristocratic reception rooms. Here, visitors learn all about the production of washi and how the special paper made its way to Europe.

EXPERIENCE HISTORY IN ONE OF EUROPE'S LARGEST CASTLES

Veste Oberhaus, over 800 years old, lies high above Passau on the Georgsberg. Covering an area of 65,000 square metres, it is one of the largest preserved fortresses in Europe.

Within the ancient walls of the Veste Oberhaus, history comes to life in a unique way. In the former home of the Passau prince-bishops, you can find the **Oberhausmuseum** with various exhibitions. They not only offer exciting insights into medieval life at the castle but also shed light on the eventful history of the city of Passau, as well as on its importance as a trading centre on three rivers. At the heart of the fortress, St George's Chapel contains a unique fresco cycle from the 14th century.

From the **Observation Tower** as well as from the Linde Battery you can enjoy the most beautiful scenic views – from the Bavarian Forest to the picturesque Old Town and the confluence of the rivers Danube, Inn and Ilz. A great way to experience the castle's history is the free **Veste Oberhaus App** that guides you through the fortress complex on four adventure tours, "following in the footsteps of knights and prince-bishops".
